Attention: Mr. K.E. Newbold, P. Eng.

Dear Mr. Newbold:

This is in response to your letter dated March 9, 1988, regarding Notices of Approval E-122, 149, 194, 195, 211, 212 and subsequent additions and revisions, and proposing to modify the meter blades approved therein by forming them from pre-plated copper material instead of plating them after forming.

I am advised that, upon evaluation of the proposed modifications, the Electrical Laboratory has concluded that they may be regarded as immaterial in relation to the approval provisions of the Electricity and Gas Inspection Act. Accordingly, pursuant to the authority delegated to me under the said Act:

1. your letter is hereby acknowledged as satisfying the notification requirements of section 13, Part III of the Electricity and Gas Inspection Regulations, SOR/86-131, 16 January, 1986, and
2. the proposed alteration is hereby accepted, in accordance with the aforementioned section, as being an immaterial one and hence included within the approval.

All recipients of Notices of Approval under the Electricity and Gas Inspection Act are being informed of this decision by copy of this letter.

Yours truly,

W.R. Virtue
Chief
