215 Laird Drive
Toronto, Ontario M4G 3X1
Attention: Mr. Marc Purc

1991-11-29

Dear Mr. Purc:

This is in response to your recent notification given in accordance with the Electricity and Gas Inspection Regulations, Section 13, regarding devices approved under Notice of Approval E-268 Rev. 3. It is noted that these devices may be modified as follows:

- The approved devices may be furnished in the flush-mount design,
- identical to that approved pursuant to Notices of Approval E-60, E-63, E-64, E-65 and E-66. This will be indicated in the model designation by
- the addition of the letter "F", thus making the model designation "KVIF".
- Only those ratings and element configurations previously approved are
- covered by this letter.

I am advised by the Metrology Laboratory that their evaluation of the proposed modifications indicates that they may be regarded as immaterial in relation to the approval provisions of the Act. Accordingly, your notification is acknowledged and the modifications are accepted as being included within the above-noted approval. All recipients of the approval notice are being informed by copy of this letter.

Yours truly,

W.R. Virtue, Chief
Legal Metrology Laboratories
