Attn.: Mr. R. Saunders

1989-03-30

Dear Mr. Saunders,

This is in response to your recent notification given in accordance with the Electricity and Gas Inspection Regulations, Section 13, regarding devices approved under Notice of Approval T-137 and T-137-2. It is noted that these devices are to be modified as follows:

- Voltage Transformer Series MEO-2505 to be manufactured to Sangamo specifications by Balteau Instrument Transformers, Escape N° 21 Naucalpan Juarez, Edo de Mexico. Exterior appearance has also been changed slightly (size, colour, shape).

I am advised by the Electrical Metrology Laboratory that their evaluation of the proposed modifications indicates that they may be regarded as immaterial in relation to the approval provisions of the Act. Accordingly, your notification is acknowledged and the modifications are accepted as being included within the above-noted approval. All recipients of the approval notice are being informed by copy of this letter.

Yours truly,

W.R. Virtue, Chief
Legal Metrology Laboratories
