MAL No. - N° De LAM  
**MAL-G173 Rev. 1**

Date: June 4, 2004

File number: AP-AG-04-0006

**MODIFICATION ACCEPTANCE LETTER (MAL)  
FOR  
Approved Meters and Devices  
Type of Device**

Temperature Transmitter

**Purpose**

The purpose of this letter is to convey details of modifications to meters which have previously received approval of type recognition from Measurement Canada. These modifications have been evaluated by the Approval Services Laboratory in accordance with national requirements and shall be considered to be included within the scope of the originally issued Notices of Approval specified in this document and any subsequent revisions to these Notices of Approval.

**Scope**

The modifications described in this letter affect meters identified in the following Notice of Approval:

**Approval Numbers**

**AG-0498**

**Revision**

The purpose of this revision is to add the firmware version 5.3.7. The new firmware stabilizes the switching speed of the amplifier and does not affect the measurement accuracy of the transmitter.

**Applicant**

Rosemount Inc.  
8200 Market Blvd.  
Chanhassen, Minnesota, 55317  
USA

**Description of Modifications**

Version 17 of the hardware module and firmware version 5.3.6 for the transmitter are approved for use in custody transfer. The main hardware modifications were to replace the processor and use external nonvolatile memory in place of the internal memory of the old processor. The changes to the firmware were to support the hardware changes.
