STANDARDS BRANCH - DIRECTION DES NORMES

NOTICE OF APPROVAL

G-43-1

OTTAWA February 24, 1972

MODIFICATION TO
SPRAGUE TYPES 175, 240 and 250
STANDARD AND TEMPERATURE COMPENSATED
POSITIVE DISPLACEMENT GAS METERS

Approval Circular G-43, dated March 5, 1969 remains in force

DESCRIPTION

Circular G-43 contains illustrations showing the meter register covered by a metal index box assembly.

The manufacturer has recently introduced wholly Polycarbonate Index Boxes to cover the registers in these meters and added steel inset hubs to meter connections in slightly revised design of the top casting.

These modifications do not affect the performance of these meters and they have been approved.

Approval granted to:

Sprague Meter Division of
Textron Canada Ltd.,
Hamilton, Ontario.

J.S.T. Swanson
for J.S.T. Swanson, P. Eng.,
Chief, Standards Laboratory,
Standards Branch.

W.J.S. Fraser
W.J.S. Fraser,
