Mr. Glenn Wilson
Canadian Meter Co. Inc.
3037 Derry Road West
Milton, Ontario
L9T 2X6

Dear Sir:

This is in response to your recent notification given in accordance with the Electricity and Gas Inspection Regulations, Section 13, regarding devices approved under Notices of Approval G-64 through G-64-18. It is noted that these devices are to be modified as follows:

- The rotor and bushing assembly have been secured to the shaft with a wave washer and cotter pin for all meters except the 3 inch GT. The shaft will now be keyed and threaded, and the rotor/bushing assembly secured to the shaft by a Nylok-hex nut for all meters listed under the above-noted approval notices.

I am advised by the Gas Metrology Laboratory that their evaluation of the proposed modifications indicates that they may be regarded as immaterial in relation to the approval provisions of the Act. Accordingly, your notification is acknowledged and the modifications are accepted as being included within the above-noted approval. All recipients of the approval notice are being informed by copy of this letter.

Yours truly,

H.L. Fraser, Chief
Electricity and Gas
