STANDARDS BRANCH - DIRECTION DES NORMES

NOTICE OF APPROVAL

G-69-1

OTTAWA May 10, 1972

MODIFICATION TO ROCKWELL TEMCORECTOR TYPE I

Approval Circular G-69, dated December 23, 1970
remains in force.

DESCRIPTION

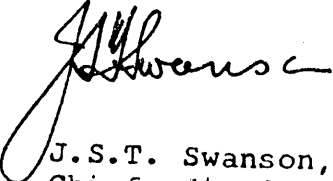

Temcorectors Type I were originally approved with integrating brackets which did not include case compensation for ambient temperature variation.

Rockwell Manufacturing Company will shortly introduce case compensated brackets in their Temcorectors Type I. This modification has been approved by the Standards Branch.

Attached drawings show the two versions of the integrating brackets.

Approval granted to:

Rockwell Manufacturing Company of
Canada Limited,
Guelph, Ontario.

J.S.T. Swanson, P. Eng.
Chief, Standards Laboratory
Standards Branch.

W.J.S. Fraser,
Chief, Electricity and Gas Division,
Standards Branch.

Ref: SL-100-981 H
