Attention: Mr. J. Knazko

Dear Mr. Knazko:

This is in response to your letter dated January 15, 1988, regarding Notice of Approval G-197 Revision I dated July 28, 1987 and proposing to modify the Electronically Corrected Meters (ECM) approved therein by making the ECM "system" available as an assembly of two (2) distinct, separate components, i.e. the approved Romet standard counter meter and the EVC approved under G-189, dated July 28, 1987. Each component is capable of being calibrated and sealed, separately, thereby allowing for "in-line" interchangeability of the EVC component.

I am advised that, upon evaluation of the proposed modifications, the Gas Laboratory has concluded that they may be regarded as immaterial in relation to the approval provisions of the Electricity and Gas Inspection Act. Accordingly, pursuant to the authority delegated to me under the said Act:

1. your letter is hereby acknowledged as satisfying the notification requirements of section 13, Part III of the Electricity and Gas Inspection Regulations, SOR/86-131, 16 January, 1986, and
2. the proposed alteration is hereby accepted, in accordance with the aforementioned section, as being an immaterial one and hence included within the approval.

All recipients of Notices of Approval under the Electricity and Gas Inspection Act are being informed of this decision by copy of this letter.

Yours truly,

W.R. Virtue
Chief

Canada
