Dear Sir,

This is in response to your recent notification given in accordance with the Electricity and Gas Inspection Regulations, Section 13, regarding devices approved under Notice of Approval G-102 to G-102-12 and G-203. It is noted that these devices are to be modified as follows:

- An improved method of fastening the view windows to the TC register module results in a slightly different shape and size of this module.  
Refer to attached photo.

I am advised by the Gas Metrology Laboratory that their evaluation of the proposed modifications indicates that they may be regarded as immaterial in relation to the approval provisions of the Act. Accordingly, your notification is acknowledged and the modifications are accepted as being included within the above-noted approval. All recipients of the approval notice are being informed by copy of this letter.

Yours truly,

H.L. Fraser, Chief  
Electricity and Gas
