Attention: Mr. J. Davis

Dear Mr. Davis:

This is in response to your letter dated September 23, 1987, regarding Notice of Approval G-215 dated December 9, 1987 and proposing to modify the Series 2500 Flow Computer approved therein by making available for use two additional applications, or software options, namely AGA-3 application number CS11049B and AGA-7/AGA-5 application number D513026B. These programs are revisions of application programs already approved.

I am advised that, upon evaluation of the proposed modifications, the Gas Laboratory has concluded that they may be regarded as immaterial in relation to the approval provisions of the Electricity and Gas Inspection Act. Accordingly, pursuant to the authority delegated to me under the said Act:

1. your letter is hereby acknowledged as satisfying the notification requirements of section 13, Part III of the Electricity and Gas Inspection Regulations, SOR/86-131, 16 January, 1986, and
2. the proposed alteration is hereby accepted, in accordance with the aforementioned section, as being an immaterial one and hence included within the approval.

All recipients of Notices of Approval under the Electricity and Gas Inspection Act are being informed of this decision by copy of this letter.

Yours truly,

W.R. Virtue
Chief
