Attn: Mr. Ray Forbes

Re: Approval of "Orificemaster" Orifice Fitting, Redesignated as Model OMP, Sizes 2, 3, 4 and 6 inch.

Dear Mr. Forbes:

This is in response to your letters of April 1, 1983 and January 12, 1984 regarding a modification to type Orificemaster Orifice Fittings approved under Notice of Approval number SD-GA.100. I am advised that the Gas Laboratory has evaluated the design change, in regard to the method used to hold the orifice plate in its required position and has concluded that it may be regarded as insignificant, in relation to the approval provisions of the Gas Inspection Act.

Accordingly, pursuant to the authority delegated to me by the Director under section 7 of the Gas Inspection Regulations;

1. your letters are hereby acknowledged as satisfying the notification requirements of subsection 7(2) of the regulations; and
2. the proposed alteration is hereby accepted, in accordance with subsection 7(3) of the Regulations, as being an immaterial one and hence included within the approval.

All recipients of Notices of Approval under the Gas Inspection Act are being informed of this decision by copy of this letter. For our records, you are requested to advise us of the starting serial numbers when the change is initiated in production.

Yours truly,

W.R. Virtue  
Chief,  
Legal Metrology Laboratories
