STANDARDS DIVISION

SD-WA. 60

OTTAWA, May 30th, 1950

NOTIFICATION OF TYPE LISTING

Under the provisions of the appropriate Act, the apparatus specified and illustrated herein has been listed as a Class C device, and may be used in Canada in accordance with the conditions applicable to this classification.

Authority: Weights and Measures Act, Chapter 212, R.S. 1927,
and Regulations thereunder (P.C. 3459).

Apparatus Listed: Model FFF Automatic Bagging Scale, manufactured
by Richardson Scale Company, Clifton, N. J.

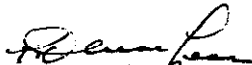

Rating of Apparatus: 200 lbs. maximum capacity.

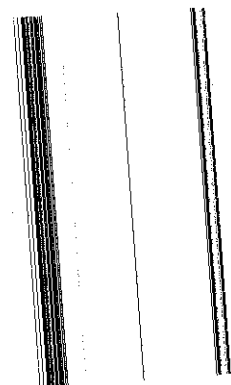

Application: Bagging of such materials as rice and sugar in
general trade.

Conditions: As prescribed in Part II, Sections 3 and 4 of P.C.
3459.

Description: This machine is provided with an equal-arm weighing
mechanism which operates on the gravity principle and is
equipped with hardened steel knife-edges and bearings.
The discharge gate to the scale hopper is operated auto-
matically by counter-weights and the discharge to the
bag may be arranged for either automatic or manual control.
A reserve of material fed from a separate compartment in the
hopper allows uniform dribble flow. The discharge and
dribble controls are adjusted by check-weighing with a
Class A device.

Testing: Not applicable as Class C devices do not require
Government inspection; but notice should be taken of
the requirements of Part VI, Section 28 of P.C. 3459
respecting usage.

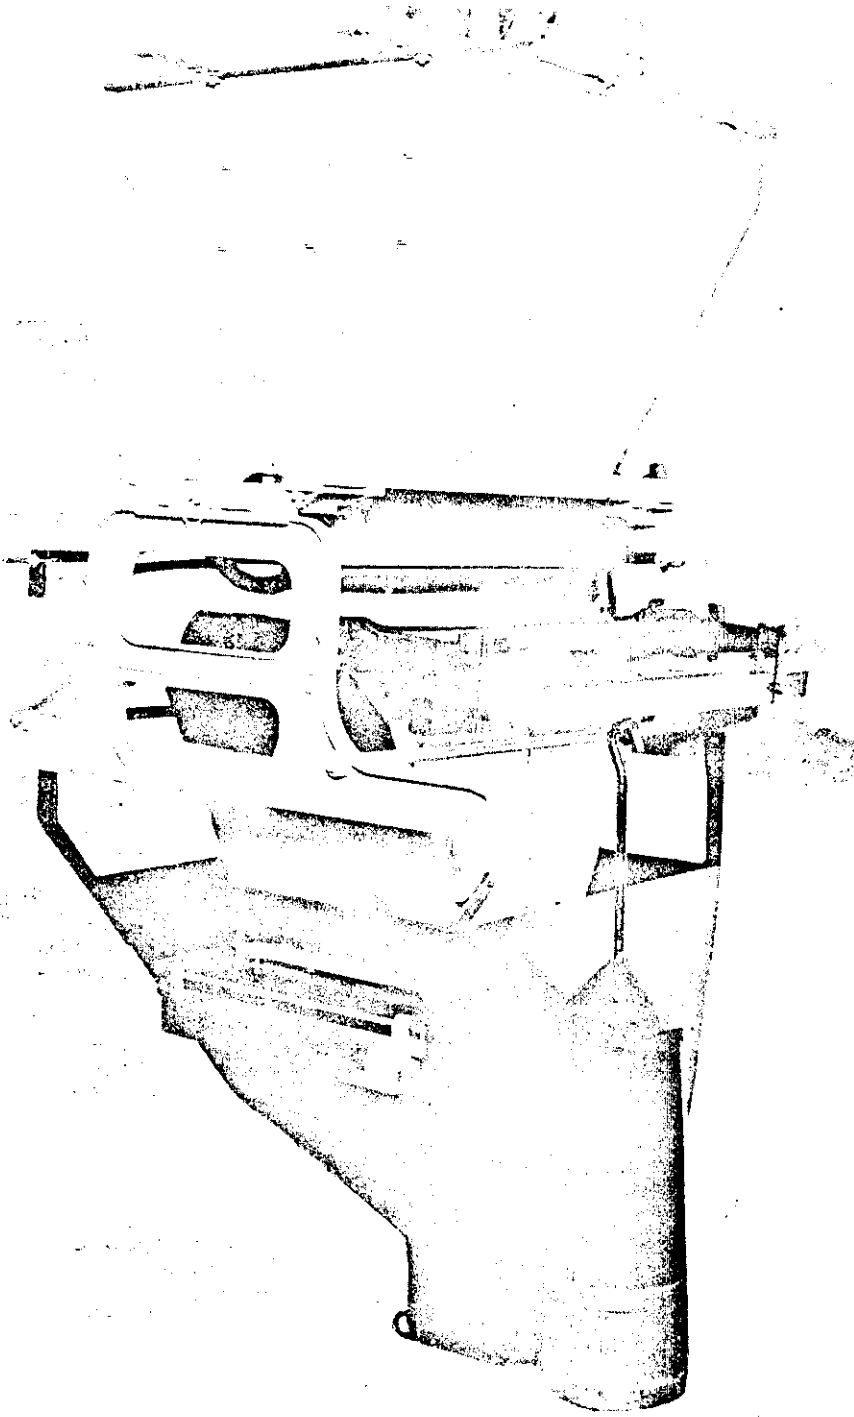

R. W. MacLean,
Director,
Standards Division.
