## STANDARDS DIVISION

OTTAWA, February 10th, 1955.

## NOTIFICATION OF TYPE LISTING

Portable Platform Scale - Manufactured by the  
Howe Scale Company, Rutland, Vermont, U.S.A.

Under the provisions of the Weights and Measures Act,  
Chapter 292, R.S.C. 1952, and Regulations thereunder (P.C. 6894), the  
apparatus specified and illustrated herein has been listed as an  
approved device and may be used in Canada in accordance with the con-  
ditions applicable.

Apparatus Listed: Portable floor type platform scale equipped with  
beam, Model 500.

Rating of Apparatus: Capacity 500 lbs.

Application: Weighing commodities in trade, shipping, warehouse  
weighing and industrial use.

Conditions: As prescribed in P.C. 6894.

Description: This device is a conventional floor type portable scale  
equipped with wheels. The levers are cast iron, load and  
fulcrum pivots are square hardened steel, turned on one  
end, and pressed into reamed holes. The remainder of the  
pivots are pear shaped. The bearings are hardened pressed  
steel plate.

The usual "Howe" ball, anti sway mechanism, is replaced  
by two interchangeable check rods.

The beam supporting pillar is a box type wooden pillar.  
The platform is cast with a sheet steel center plate. The  
base is also a casting.

Testing: The standard tests for a platform scale shall apply.
