APPROVAL LISTING

Cloth measuring machine - manufactured by
The Measuregraph Co. Inc., 4243 Forest Park Blvd.,
St. Louis 8, Mo., U. S. A.

Under the provisions of the Weights and Measures Act, Chapter 292, R.S.C. 1952, and Regulations thereunder (P.C. 6894), the apparatus specified and illustrated herein has been listed as an approved device and may be used in Canada in accordance with the conditions applicable.

Apparatus Listed: Linear cloth measuring machine with dial indicator model 425.

Rating of Apparatus: Capacity of registration 100 yards.

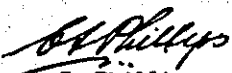

Application: Measuring cloth and fabric in wholesale trade.

Conditions: As prescribed in P. C. 6894.

Description: This device is basically of similar construction to model 156 (SD-WA. 312) except for changes as follows:

- (1) The device is equipped with a single dial graduated to 1 yard by inches and 1/8 yards and has a yardage totalizer whose numerals appear in a viewing window on the top of the housing.
- (2) The customer's dial has been removed.
- (3) The shape of the notching lever and housing have been altered.
- (4) No provision is made for automatic or manual computing of value.
- (5) This meter will notch inch measurements.

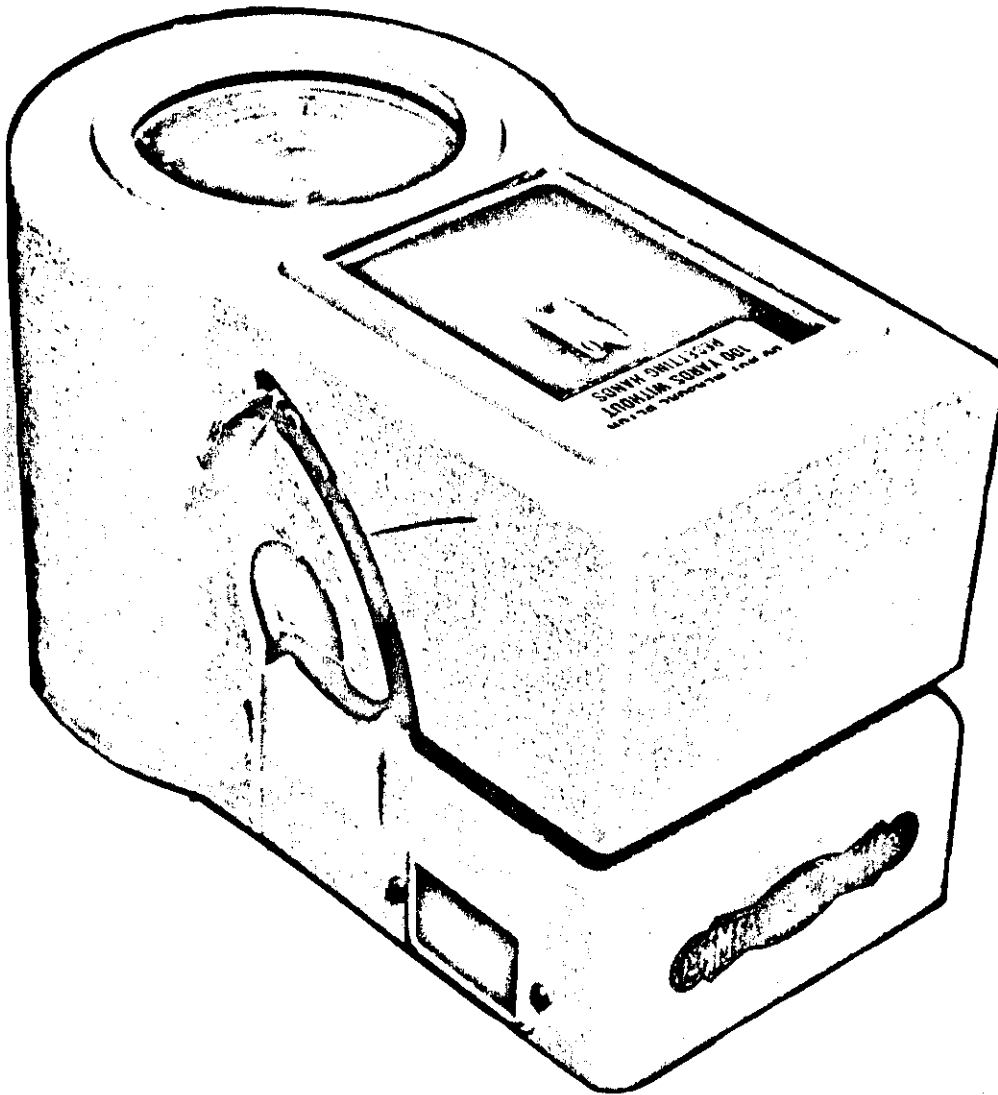

Testing: The standard tests for a linear measuring device shall apply. The inextensible tape supplied to local offices must be used for this purpose. Note: The serial number is stamped on the bottom of the base plate.

C. S. Phillips,
Assistant Director (W&M),
Standards Division.

E. W. MacLean,
