Bennett Pump Canada Ltd.
8 Finley Road
Brampton, Ontario
L6T 1A9
Attn: Mr. R. Chautems

1992-10-30

Dear Sir,

This is in response to your recent notification given in accordance with the Weights & Measures Regulations, Section 14, regarding devices approved under Notice of Approval S.WA-2071 Rev.3, S.WA-2093 Rev.1, S.WA-2184 Rev.1, AV-2214 Rev.2, AV-2216 Rev.2, AV-2232 Rev.1. It is noted that these devices are to be modified as follows:

• Optional Equipment:

ACES BEN electronic module manufactured by Technaces Inc. The module is installed in the electronic register to control the high flow and the low flow solenoids in the dispenser to allow the pump operator to stop accurately on the desired whole dollar sale.

I am advised by the Volume Metrology Laboratory that their evaluation of the proposed modifications indicates that they may be regarded as immaterial in relation to the approval provisions of the Act. Accordingly, your notification is acknowledged and the modifications are accepted as being included within the above-noted approval. All recipients of the approval notice are being informed by copy of this letter.

Yours truly,

R.C. Bruce, Chief
Weights & Measures
