STANDARDS DIVISION

IN YOUR REPLY REFER TO FILE NO. .... OTTAWA, December 28th, 1951. ....

NOTIFICATION OF TYPE LISTING

Under the provisions of the appropriate Act, the apparatus specified and illustrated herein have been listed as Class A devices, and may be used in Canada in accordance with the conditions applicable to this classification.

Authority: Weights and Measures Act, Chapter 212, R.S. 1927, and Regulations thereunder (P.C. 3459).

Apparatus Listed: Model 39L-RA (Tokheim) and Model 62 (National) computing gasoline dispensing meter pumps; Model 39-WNC-LRA (Tokheim) and Model 62-WNC (National) non-computing meter pumps, manufactured by the Tokheim Oil Tank and Pump Company, Fort Wayne, Indiana, U.S.A.

Rating of Apparatus: 12 gallons per minute.

Application: Retail gasoline trade.

Conditions: As prescribed in P.C. 3459, with the added requirement that all hose nozzles be equipped with automatic check valves in addition to the manually operated delivery valve.

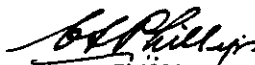

Description: Model 39L-RA is a motor operated computing pump equipped with a Tokheim reciprocating three piston positive displacement meter. The rotary pump, bi-pass, air separator and pressure regulating valve are combined in one assembly. The visi-glass is located at the highest point in the line. The registering head is of standard "Veeder-Root" design registering money value of sale and gallons and tenths of gallons delivered.

A mechanical zero reset interlocking mechanism of satisfactory design is standard equipment. The delivery hose has a length of twelve feet and is not retracted within the pump casing but is retrieved by a retractable cable operated by a sliding weight within the casing. The hose nozzle is equipped with a spring loaded check valve in addition to the manually operated delivery valve.

The National, Model 62, is identical in fundamental design, and construction, to Model 39L-RA, except that Model 62 has a glass dome at the top of the casing for display purposes.

The National, Model 62-WNC and the Tokheim, Model 39-WNC-LRA are identical to Model 62 and Model 39L-RA except they are non-computing.

Testing: The standard tests for a gasoline dispensing meter pump shall apply.
