## APPROVAL LISTING

## GILBERT AND BARKER - GASOLINE DISPENSERS

Under the provisions of the Weights and Measures Act, Chapter 292, R.S.C. 1952, and Regulations thereunder (L.C. 6894), the apparatus specified and illustrated herein have been listed as approved devices and may be used in Canada in accordance with the conditions applicable.

Apparatus Listed: Computing gasoline dispensers, Models 1114 and 1114RC twin one product units, Models 1124 and 1124RC twin two product units, manufactured by Gilbert and Barker Manufacturing Company Limited, 64 Jefferson Avenue, Toronto, Ontario.

Rating of Apparatus: 12 G.I.P. Maximum.

Application: Retail gasoline trade.

Conditions: As prescribed in L.C. 6894.

Description: These devices are twin gasoline dispensers installed in a single frame and housing. The R.C. Models are equipped with remote pumping units.

These dispensers use the same components as dispensers listed on SD-A.303 and SD-A.304 except that the components have been re-arranged to make the assembly more compact, the housing has been redesigned, hose retraction is external and the sight glass arrangement has been changed.

Testing: The standard tests for a retail gasoline dispenser shall apply.
