APPROVAL LISTING

WAYNE - BLENDOMATIC DISPENSER

WITH REMOTE DISCHARGE

Under the provisions of the Weights and Measures Act, Chapter 292, R.S.C. 1952, and Regulations thereunder (P.C. 6894), the apparatus specified and illustrated herein has been listed as an approved device and may be used in Canada in accordance with the conditions applicable.

Apparatus Listed: Blendomatic computing gasoline dispenser with remote discharge tower Model 511-D-T manufactured by the Wayne Pump Company, 829 Richmond Street, West, Toronto, Ontario.

Application: Retail gasoline trade.

Conditions: As prescribed in P.C. 6894 and in addition the registration section on one side of each dispenser shall be completely blanked off and bear markings as illustrated on this circular to indicate to the customer which discharge tower is associated with the dispenser serving him.

Description: This device is identical to Model 511-D listed on SD-WA.332 except that: (1) the discharge pipe lines have been lengthened and lead below the surface of the concrete island to a remote discharge tower equipped with a retracting discharge hose and nozzle. (2) The twin sight glasses have been removed from the dispenser cabinet and located on the discharge tower.

Testing: The standard tests for a Blendomatic dispenser shall apply.
