APPROVAL LISTING

ROCKWELL - BULK METERS

Under the provisions of the Weights and Measures Act, Chapter 292, R.S.C. 1952, and Regulations thereunder (P.C. 6894), the apparatus specified and illustrated herein have been listed as approved devices and may be used in Canada in accordance with the conditions applicable.

Apparatus Listed: Rotocycle bulk meters models T-70 and T-120 with maximum capacities of 60 G.P.M. and 100 G.P.M. manufactured by Rockwell Manufacturing Company of Canada Limited, 40 Wellington Street, West, Guelph, Ontario, and Rockwell Manufacturing Company, Pittsburg 8, Pennsylvania, U.S.A.

Application: Metering bulk quantities of liquid in trade and are particularly adapted for tank truck use.

Conditions: As prescribed in P.C. 6894 with the added requirement that both maximum and minimum G.P.M. must be stamped on the name plate.

Description: These devices are compact units consisting of a meter, registering head, and air eliminator strainer. The meter is basically the same design as listed on S-WA. 286 and S-WA. 341. These meters may be equipped with large reset indicator head, reset register and printer, or master duplicator. The meter may also be equipped with either manual or preset automatic means for flow cut off.

Testing: The standard tests for a bulk meter shall apply.
