APPROVAL LISTING

BENNETT GASOLINE DISPENSERS

2100 SERIES

Under the provisions of the Weights and Measures Act, Chapter 292, R.S.C. 1952, and Regulations thereunder (P.C. 6894), the apparatus specified and illustrated herein have been listed as approved devices and may be used in Canada in accordance with the conditions applicable.

Apparatus Listed: Computing and non-computing gasoline dispensers.

Complete with motor and pump - Computing models: 2166, 2166D, 2178 and 2186.

With remote pumping unit - Computing Models: 2162, 2172, and 2182.

NOTE: The above mentioned models may be equipped with non-computing registers and the applicable model number listed above shall apply with the suffix (-1) added. The suffix (D) indicates a 3/4 H.P. motor is installed. Manufactured by: John Wood Company Limited, 101 Hanson Street, Toronto, Ontario.

Rating of Apparatus: Maximum flow 12 G.P.M. and 20 G.P.M. when equipped with 3/4 H.P. motor.

Application: Retail gasoline trade.

Conditions: As prescribed in P.C. 6894.

Description: These devices are of the same design and construction as dispensers listed on circular SD-WA. 357 with the following exceptions:

- (1) The lights have been deleted from the assembly.
- (2) The projecting canopy supporting the lights has been removed and the casing has been streamlined.

Testing: The standard tests for a gasoline dispenser shall apply.
