APPROVED

GILBERT AND BARKER -- MODEL 252-010-750  
DISPENSER WITH MODEL HC252 HOSE CABINET

manufactured by Gilbert and Barker Manufacturing Company, 64 Jefferson Avenue, Toronto, Ontario.

Apparatus Listed: Computing type gasoline dispenser with remote pumps and hose cabinet.

<u>Model No.</u>	<u>Description</u>
252-010-750	Dual dispenser cabinet for remote pumps, containing all the usual equipment except the hoses.
HC-252	Dual hose cabinet, containing also duplicate switches for the solenoid valves; boots for the nozzles are on the same face of the cabinet.
HC-252-10	Hose cabinet, similar to the above, except that the boots for the nozzles are at the ends of the cabinet, as on a standard gasoline dispenser.

Rating of Apparatus: Maximum 15 gpm.

Application: Dispensing gasoline in retail trade.

Special Conditions: Only one hose cabinet may be used with each dispenser, and each hose must be identified with its respective register.

Description: The dispenser cabinet is similar to model 252-010 dual dispenser approved on SDWA-459. The hose cabinet is a slightly modified dispenser cabinet. Duplicate switches for the product control valves are located on the hose cabinet, and these are interlocked to the dispenser switches and to the dispenser mechanical interlocks.

Testing: The standard tests for a gasoline dispenser shall apply.
