

RECORD OF APPROVAL ACTION

File Under S-WA.526

Approval Listing Number - Applicable to all previous Astro-Universel approvals.

Company Requesting Approval - Petroquip Limited, 60 Leslie St., Toronto, Ont.

Date of Application for Approval - August 8, 1968.

Date of Filing of Application -

By -

Type of Device - Rebuilt gasoline dispensers

Model No.

Rating or Capacity

Remarks

Approval has been granted to Petroquip Limited and their authorized agents to incorporate a cam-operated Micro-switch and computer with semi-automatic reset in approved models of gasoline dispensers in place of the motor switch controlled by linkage and computer with manual reset. The Micro-switch is mounted on a new rotary control handle together with the spring-loaded cam-follower and a device which positions and limits the movement of the cam so that the motor cannot be started until the computer is cleared. The control handle rotates 90° from the "off" to "on" position, and covers the boot so that the nozzle cannot be replaced unless the lever is in the "off" position.

At present the dispensers listed on S-WA.526 will be immediately affected, but eventually this improvement will be made available on all approved models. Dispensers incorporating this modification will have the suffix "3" in the model number, e.g., model 100 BT becomes 100-3BT.

File Nos. SW-85- P2

SL-102-676

(Note: File Record of Approval Action with Approval Listing notices when Approval Listing number is assigned in advance of preparation of notice; replace with Approval Listing notice when issued).

Approval is granted for use of the above-listed devices subject to any special or general conditions which may be listed on the Approval Listing notice, and subject to supply of any further information or photographs requested.
