

APPROVED: ASTRO-UNIVERSAL - REBUILT GASOLINE DISPENSERS

manufactured by Astro Limited (Petroquip Ltd.) 60 Leslie Street, Toronto, Ontario.

Apparatus Listed: Rebuilt gasoline dispensers. The dispensers will use the following new model numbers:

- 100BT Single suction-pump type dispenser, utilizing components from Bennett models 541, 646, 766, 966 and 1066. This T-style cabinet model uses components as used in plain cabinet models 10BT and 11BT on S.WA-498 and S.WA-527 respectively.
- 200BR Single suction-pump type dispenser, utilizing components from Bowers models 565, 575, 577 and 577TV. This is the T-style cabinet equivalent of the model 20BR.
- 320GB Single suction-pump type dispenser, utilizing components from Gilbert and Barker model 996, T-style cabinet.
- 340GB Single suction-pump type dispenser, utilizing components from Gilberco model 296, T-style cabinet.
- 400W Single suction-pump type dispenser, utilizing components from Wayne models 60 and 70, T-style cabinet.
- 500T Single suction-pump type dispenser, utilizing components from Tokheim models 39 or 300 series models. The internal arrangement is slightly different depending on which model is rebuilt.
- 550T Single suction-pump type dispenser, utilizing components from Tokheim models 39A, 39B, and 391RA.
- 170BT-RD Single remote type dispenser, utilizing components from Bennett models 952 and 962. The interlock is from a Wayne model 500 dispenser and is connected to the product control valve with the original linkage. This is the T-style equivalent of the model 17BT-RD.

These dispensers when equipped with lights are 4" higher than the unlighted models and model number then has the suffix "L".

Astro Limited has appointed agents who are authorized to rebuild dispensers to the standard Astro-Universal designs. A list of these agents together with serial number allocation is found at the end of this circular.

Rating of Apparatus: Maximum capacity 12 gpm.

Application: Retail gasoline trade.

Description: This approval covers gasoline dispensers rebuilt by Astro Limited and by shops appointed by them. In general, components will be taken from units built in 1946 and later. These components will be thoroughly overhauled to perform substantially as well as new ones before being installed in new, modern cabinets supplied by Astro Limited. The components may be assembled only in the same combinations as used in the original models, and components of different makes may not be used in the same dispenser.

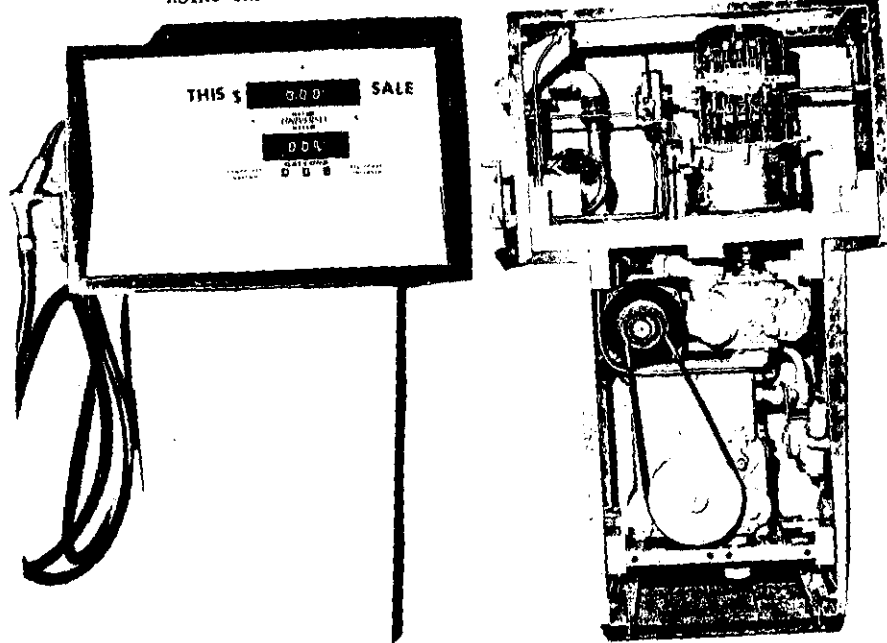

Astro Limited will distribute photographs and drawings of approved models to their agents, to ensure uniformity in assembly.

Testing: The standard tests for a gasoline dispenser shall apply.

Note: Approval is granted under the Weights and Measures Act, Chapter 292, and Regulations thereunder (P.C. 6894) for use in Canada under the general conditions of P.C. 6894, and under any special conditions listed above.
