APPROVAL LISTING

McHENRY UNIVERSAL - REBUILT GASOLINE DISPENSER

Under the provisions of the Weights and Measures Act, Chapter 292, R.S.C. 1952, and Regulations thereunder (P.C. 6894), the apparatus specified and illustrated herein have been listed as approved devices and may be used in Canada in accordance with the conditions applicable.

Apparatus Listed: Computing gasoline dispenser; suction pump type; rebuilt from the component parts of previously approved Tokheim models 39 and 300.

Unlighted model no: 500-T
Lighted model no: 500-T-L

Manufactured by: McHenry Universal Co.,
8550 Delmeade Rd., Montreal.

Rating of Apparatus: Maximum capacity 12 gpm.

Conditions: As prescribed in P.C. 6894.

Application: Retail gasoline trade.

Description: Although the working components used in these dispensers are taken from older models, they are thoroughly overhauled to perform substantially as well as new ones. A Wayne computer interlock mechanism is used, and the sight glass and motor switch handle are of Universal design.

Testing: The standard tests for a retail gasoline dispenser shall apply.
