APPROVAL LISTING

S. F. BOWSER - SERIES 48 and 51 MODEL DISPENSERS

Under the provisions of the Weights and Measures Act, Chapter 292, R.S.C. 1952, and Regulations thereunder (P.C. 6894), the apparatus specified and illustrated herein have been listed as approved devices and may be used in Canada in accordance with the conditions applicable.

Apparatus Listed: Computing type gasoline dispensers; suction pump and remote pump types, model numbers as listed below:

<u>Unlighted</u>	<u>Lighted</u>	<u>Description</u>
48	51	Single product; single suction pump
48R	51R	Single product, single hose, remote pump
48-D-1	51-D-1	Single product twin, suction pump
48R-D-1	51R-D-1	Single product twin, remote pump
48-D-2	51-D-2	Two product twin, suction pumps
48R-D-2	51R-D-2	Two product twin, remote pumps

Manufactured by: S. F. Bowser Company Limited,
Hamilton, Ontario, Canada.

Rating of Apparatus: Maximum capacity 15 gpm.

Conditions: As prescribed in P.C. 6894.

Application: Retail gasoline trade.

Description: The housing for these dispensers is quite different from the previously approved Model 4800 on S-WA.386, in that the cabinets are wider to accommodate twin units, but are shorter in keeping with the trend toward lower dispensers. Both the gear and blade type pumping units are used in these models.

Testing: The standard tests for a retail gasoline dispenser shall apply.
