APPROVED

ASTRO-UNIVERSEL REBUILT GASOLINE DISPENSERS -
MODELS 430W-RD, 450W-1, 450W-2, 600S, AND 660S

manufactured by Astro Limited (Petroquip Limited), Toronto, Ontario, and their authorized agents.

<u>Model</u>	<u>Description</u>
430W-RD	Single hose, remote pump dispenser, using overhauled working components from Wayne model 600-1-198 remote pump dispenser; T-style cabinet, computer off-centre.
450W-1	Dual hose, single suction pump dispenser, using overhauled working components from Wayne models 505-Duo-1; solenoid-operated product control valves.
450W-2	Same as model 450W-1 except with mechanically operated product control valves.
600S	Single hose, suction pump dispenser, using overhauled working components from A.O. Smith model L-3; T-style cabinet.
660S	Single hose, suction pump dispenser, using overhauled working components from A.O. Smith Model LC-3; T-style cabinet.

Rating of Apparatus: Maximum capacity 12 gpm.

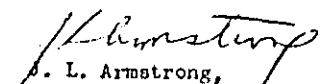

Application: Retail gasoline trade.

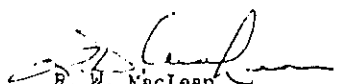

General Description: The cabinet used for these dispensers is the same as used for previously approved models. All the working components are thoroughly overhauled, before being installed in the new cabinet. The arrangement of the components in the new housing is kept as similar as possible to the original.

Testing: The standard tests for a retail gasoline dispenser shall apply.
