STANDARDS BRANCH - DIRECTION DES NORMES

NOTICE OF APPROVAL

S.WA-732

OTTAWA January 23, 1970.

Approved: TOKHEIM - GASOLINE DISPENSERS - SERIES 2100

manufactured by: Tokheim of Canada Limited, Toronto

Apparatus Listed: Computing type gasoline dispensers, models as listed below:

<u>Unlighted Model</u>	<u>Lighted Model</u>	<u>Description</u>
2148T	2150T	Single suction pump, single hose
2148T-RC	2150T-RC	Single hose, remote pump
2148T-1-RC	2150T-1-RC	One product dual, remote pump
2148T-2-RC	2150T-2-RC	Two product dual, remote pump
2148T-HD	2150T-HD	Single suction pump, single hose, with 3/4 hp motor and 1 inch hose, capacity 18.5 gpm

The suffix "S" is added to indicate an off-centre computer, and the suffix "PR" to indicate power reset.

Dating of Apparatus: The maximum capacity of all models except the last one listed is 12.5 gpm.

Application: Retail gasoline trade.

Description: The outward appearance of the 2100 series is similar to the 900 series approved on S.WA-463 except that the top of the T cabinet has been made narrower. A partial-flow sight glass is now used and the motor control handle has been redesigned so that it is impossible to return the nozzle to the boot without first stopping the pump.

Testing: The standard tests for a gasoline dispenser shall apply.
