STENPRO - REMANUFACTURED GASOLINE DISPENSERS

MANUFACTURER: Steel and Engine Products Ltd.
Liverpool, Nova Scotia

DEVICES APPROVED: Computing type gasoline dispensers using overhauled working components from older approved dispensers, model numbers and descriptions as follows:

<u>Model No.</u>	<u>Description</u>	<u>Original Manufacturer</u>
B-300	Single, self contained	S.F. Bowser
B-301	Twin, self-contained, one product	S.F. Bowser
B-302	Twin, self-contained, two product	S.F. Bowser
K-300	Single, self-contained	Keene Corp.
K-350HC	Single, self-contained, high capacity	Keene Corp.

Any model except K-350HC may be furnished for use with a remote pump, and is so designated by the suffix "R" to the model number.

Any model may be equipped for self-serve operation in the post-pay mode, and is so designated by the suffix "PP" to the model number.

RATING: Flow rate - 2 to 12 gpm or 9 to 55 L/M.

APPLICATION: Retail gasoline trade.

DESCRIPTION: The cabinet and accessory kit for these dispensers is supplied by Astro Universal (Petroquip), the cabinet being the same as that used on approved Astro Universal dispensers. The arrangement of components in the new housing is kept as similar as possible to the original.

The register and price computer is the mechanical type, manufactured by Veeder Root. For self-serve installations the dispenser register is equipped with a pulser unit that is driven by the money shaft of the computer, the electrical pulses so generated being fed to the cashier's console which contains the necessary facilities for computation and display, and for control of dispenser use. The self-serve system may be the Veeder Root type 500 post pay system, or may be any other approved type which is compatible with the dispensers.

MARKING: On self-serve dispensers there shall be installed on each dial face a permanent legend in letters at least 3/16" high and reading as follows:

"In case of disagreement between this register and the cashier's register, this register shall be taken as correct." or

"Charges must agree with this register."

TESTING: The standard tests for a gasoline dispenser shall apply.

REFERENCE: G 6953-S493-4

CONDITIONS OF APPROVAL: Approval is granted under the Weights and Measures Act, S.C. 1970-71-72, Chapter 36, and the Weights and Measures Regulations P.C. 1974-1461 of June 27, 1974 for use in Canada under the general conditions of the said Regulations, and under any special conditions listed above.
