RECORD OF APPROVAL ACTION

Approval Listing Number- S.WA-1186

(Issued in advance of preparation of formal Approval Notice)

Ottawa, July 14, 1980

Company: Petroquip Limited,
33 Mallard Road,
Don Mills, Ontario
M3B 1S4

Type of Device: "Universe!" blending type gasoline dispensers using remanufactured components from Wayne Blend-O-Matic dispensers, Model Numbers are as follows:

<u>MODEL</u>	<u>DESCRIPTION</u>
460W2-3BL-1	This model uses gear type pumps and the air release chamber and float-valve cylinder are arranged as in the Wayne model 760-B.
460W2-3BL-2	This model uses the compact combination pump/air release chamber with separate float-valve cylinder, as approved for Wayne dispensers by SWA-673.
460W-3	This model is designed for use with remote submersible pumps and requires no air eliminator, as means of air prevention are incorporated in the pumping unit. Strainer and solenoid valve assembly for "Lo" side is 180° from position in model 760-B

On all models, the special register designed for Blend-O-Matic dispensers is used. Only 3 blends are available, "Hi", "1/2 & 1/2" and "Lo". On all models the capacity is 13.5 L/M to 70 L/M (3 to 15 GPM).

File No.: 6953-P293-8
