Dear Sir,

This is in response to your recent notification given in accordance with the Weights and Measures Regulations, Section 14, regarding devices approved under Notice of Approval S.WA-2075. It is noted that these devices are to be modified as follows:

- The blending of two grades of gasoline can either be performed at the
- nozzle or, near the upper portion of the dispenser's cabinet by two
- short hoses protruding from the cabinet and connecting into a "Y" adapter
- to which a breakaway coupling is attached. A single hose connects
- the breakaway coupling to the nozzle.
-

I am advised by the Volume Metrology Laboratory that their evaluation of the proposed modifications indicates that they may be regarded as immaterial in relation to the approval provisions of the Act. Accordingly, your notification is acknowledged and the modifications are accepted as being included within the above-noted approval. All recipients of the approval notice are being informed by copy of this letter.

Yours truly,

D. Morgan, A/Manager
Weights and Measures
